Versatile, multi-configuration X-ray metrology tool

For semiconductor research and process development

Complete metrology for advanced processes on a single

tool Seamless integration to the BedeMetrix<sup>®</sup>-F,

The ideal bridge tool between development and pilot production

Multiple application versatility

- combine XRD, HRXRD and XRR techniques
- optimised characterisation of multiple applications
- 100µm and blanket wafer measurement
- open cassette loading from 100mm to 300mm
- ideal for process development
