**TEL CLEAN TRACK LITHIUS**  
**SN G260616**  
**300mm located Nijmegen the Netherlands**

The TEL CLEAN TRACK LITHIUS is a 300/200mm coater/developer. In response to drastically fluctuating market needs, the CLEAN TRACK LITHIUS was developed based on three concepts: improved processing, short cycle times, and enhanced network solutions. It achieves increased responsiveness and stability for important process technologies, shorter lead and start-up times, and allows for easier modifications.

# Solutions on Silicon BV

*Your service partner for Semiconductor Equipment*

- **Equipment Support**  
PM, CM, Trouble shooting, Upgrading, Training and Onsite Service Contracts
- **Process Support**  
Process design, Improvement, Fab-to-Fab Transfer and Integration
- **Refurbishment**  
From custom to complete refurbishment
- **Relocation**  
Auditing, Fingerprinting, Decommissioning, Installation, Acceptance
- **Materials**  
Supplier of first class second source materials
